Eden Valley Hospice
General Information

www.edenvalleyhospice.org
**Eden Valley Hospice** provides care for adults with life limiting illnesses from north Cumbria. The hospice has a 12 bedded adult in-patient unit with eight single en-suite rooms and a four bedded room. The home from home environment creates a relaxing atmosphere for patients and families with each room overlooking the beautiful walled garden.

Our Day Hospice provides care for up to 15 people a day, four days a week. Most days the sweet smell of freshly baked cakes fills the Day Hospice as patients, nurses and volunteers exchange stories about what has happened since they last met.

The hospice understands life limiting illnesses affect not only the patient, but their network of family, friends and carers. With this in mind, our care is extended to include these integral people within a patient’s life, as well as offering support and help at what can be a difficult time. We are able to provide this support through our Family Support Team and Sunflower Group for Carers.

**Eden Valley Hospice** relies on the help and support provided by the community to offer the highest quality of care when people need it the most. From helping to raise more than £2 million every year to volunteering their time and skills, local people make a huge difference.

The NHS provides approximately 28% of our running costs, while the remaining £2 million is raised each year through fundraising events, collection boxes, Gifts in Wills and much more.

Community support for the hospice isn’t just monetary; volunteers are a part of everything we do at the hospice. From maintaining the hospice grounds to assisting customers in the hospice shops, there are a huge array of volunteering roles and opportunities.

*Volunteering is a great way to meet new people and be part of a dedicated team working towards ensuring the hospice continues to provide the best level of care to patients and their families.*
